Seeing beyond

# ZEISS Labscope for Android

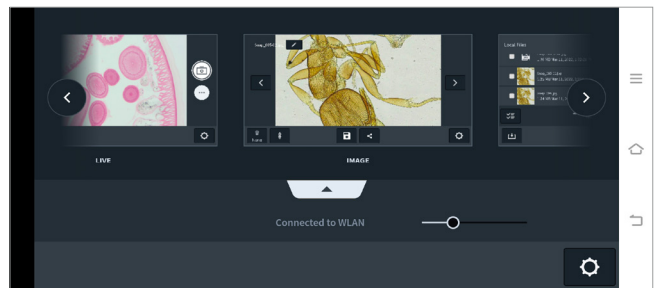

Break free from your device.

Are you working in digital education with connected microscopes? Want some good news? Labscope, the easy-to-use imaging app from ZEISS, is now available no matter what device or operating system you're on. Labscope lets you acquire images, annotate them, share them – in short, give your lessons new drive. That's good news, made even better because ZEISS Labscope now runs on Windows PC and Android devices as well as iOS.

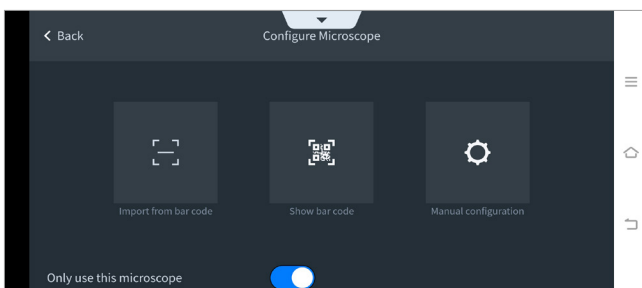

## Here's what you can expect to see with Labscope for Android

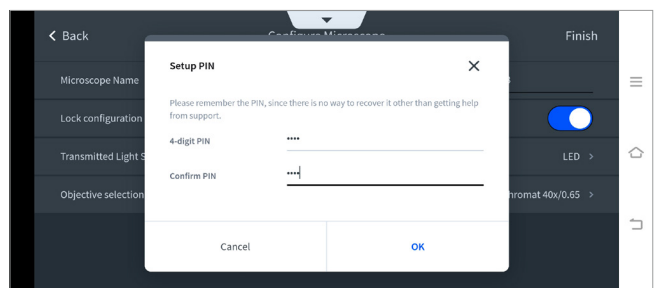

Manage your files, sort and search.

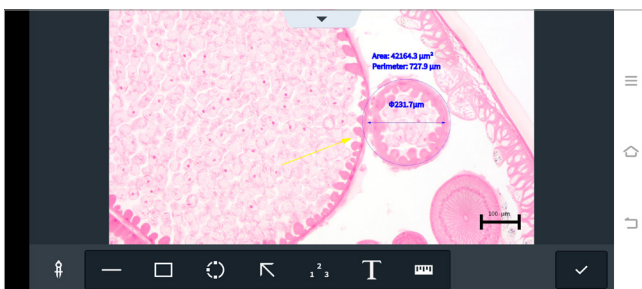

Switch between tabs easily.

Use the QR code to configure your microscope in the app.

Use a pin to lock or unlock the configuration.

Annotate your images.

Get an overview of all connected microscopes.

# ZEISS Labscope for Android
